

EDIBLE SOIL LAYERS

INGREDIENTS

chocolate chips
butterscotch chips
chocolate pudding
Oreo cookies
shredded coconut
green food coloring
gummy worms
clear plastic cups
plastic spoons

DIRECTIONS

How to: In each plastic cup, layer the food items in the following order:

1. Bottom: A handful of chocolate chips and butterscotch chips, mixed. (This bottom layer represents the **bedrock**.)
2. Lower-Middle: Chocolate pudding. (This lower-middle layer represents the **subsoil layer**.)
3. Upper-Middle: Crushed Oreo cookies. (This upper-middle layer represents the **topsoil layer**.)
4. Top: A couple gummy worms and a handful of green-colored coconut flakes. (These represent the **organic material** at the surface level.)
